085817718838  
Jalan Namin Atmaja, Pamulang,  
Banten, 15416, ID

AI Automation Specialist with proven experience designing no-code workflows, prompt engineering, and integrating AI into business operations. Skilled in developing intelligent automations with n8n, building AI agents with ChatGPT/Claude, and delivering scalable SaaS/web solutions deployed on Vercel. Strong background in remote team collaboration across 15+ time zones, project documentation, and client-focused solutions. Passionate about enabling teams to adopt AI-driven workflows that improve efficiency and reduce manual effort.

## Work Experience

### AI Automation & Workflow Associate

Mar 2024 - Sep 2025

Nodeflux | Hybrid (Indonesia)

Designed and implemented automation workflows with n8n to streamline AI model evaluation and labeling team coordination. Built adaptive prompt agents for text classification and content verification, supporting scalable AI moderation systems. Developed internal tracking tools to monitor model performance, improving accuracy and reliability across AI operations.

- Designed and implemented automation workflows with n8n to streamline AI model evaluation and data annotation processes.
- Built prompt agents for text classification and content verification, supporting scalable AI moderation systems.
- Automated reporting and performance tracking, improving AI accuracy and reliability across operations.
- Collaborated with cross-functional teams to ensure smooth data flow between AI systems and human annotators.

### Coding Expertise (AI Evaluation Contractor)

Sep 2024 - Aug 2025

Outlier (Scale AI) | Remote

Contributed to AI-assisted code generation projects for enterprise clients in e-commerce and insurance. Improved model outputs by testing, refining, and analyzing coding solutions through structured prompts and NLP-based evaluations. Collaborated with international research teams to ensure scalability and enhance customer-facing AI applications.

- Contributed to AI-assisted code generation projects for enterprise e-commerce and insurance clients.
- Tested and refined coding outputs using structured prompts and NLP-based evaluations, boosting model accuracy.
- Conducted error analysis and feedback loops to improve chatbot response quality and consistency.
- Collaborated with international AI research teams, ensuring solutions were scalable and production-ready.

### AI Data Annotation Specialist

Dec 2023 - Dec 2024

DataAnnotation Tech | Remote

Labeled and curated high-quality training datasets for enterprise AI chatbot models with focus on accuracy and consistency. Developed annotation guidelines, validated model outputs, and supported iterative improvement cycles to enhance NLP performance.

- Annotated and curated high-quality training datasets for enterprise AI chatbot and NLP models.
- Developed annotation guidelines and best practices, enhancing accuracy and consistency of training data.
- Validated AI model outputs and supported iterative improvement cycles to boost NLP performance.

- Partnered with QA teams to ensure data integrity and compliance across large-scale projects.

## Core Skills

**AI & Automation:** Prompt Engineering, AI Content Moderation, ChatGPT/Claude, GenAI Workflows

**Workflow & No-Code:** n8n, Zapier, API Integrations, Notion, Airtable

**Web Development:** React, JavaScript, vercel (CDN, CI/CD), Responsive Design, Full-Stack

**Tools & Collaboration:** GitHub, Remote Team Collaboration, Documentation, Cross-functional Communication

## Education

**MH. Thamrin University** Sep 2023 - Present

Bachelor Information Systems  
GPA: 3.90

**SMK Muhammadiyah 03** May 2020 - May 2023

High School Diploma Computer Network Engineering  
GPA: 89

## Languages

Indonesia (*Native*), English (*Advanced*)

## Certificates

**Front-End (React)** May 2025

HackerRank

**JavaScript (Intermediate)** May 2025

HackerRank

**Web Developer (PHP)** Oct 2023

BNSP KOMINFO

**Python** Sep 2023
