Jalan Namin Atmaja, Pamulang,
Banten, 15416, ID

AI Automation Specialist with expertise in designing no-code workflows, prompt engineering, and building scalable web/AI solutions. Experienced with n8n, Zapier, and Airtable to deliver automation pipelines, and skilled in deploying SaaS projects on Vercel using React/JavaScript. Strong background in collaborating remotely across 15+ time zones, with a proven record of reducing manual workloads through AI-driven workflows. Portfolio includes AI agents, automation dashboards, and SaaS applications integrated with ChatGPT/Claude.

## Work Experience

### AI Automation & Workflow Associate
*Nodeflux | Hybrid (Indonesia)*

Mar 2024 - Sep 2025

- Built automation pipelines in n8n for AI model evaluation & labeling team, cutting manual coordination by 30%.
- Created prompt-based text classifiers for content verification, supporting AI moderation at scale.
- Delivered internal dashboards for model performance tracking, boosting reliability by 15%.
- Worked with annotation, product, and QA teams to ensure seamless data flow.

### AI Evaluation Contractor (Coding Expertise)
*Outlier (Scale AI) | Remote*

Sep 2024 - Aug 2025

- Tested and refined AI-assisted code generation for enterprise clients (e-commerce, insurance).
- Conducted structured prompt evaluations & error analysis, improving accuracy by 20%.
- Built evaluation workflows for chatbot quality and consistency.
- Collaborated with global research teams to deliver production-ready code evaluation systems.

### AI Data Annotation Specialist
*DataAnnotation Tech | Remote*

Dec 2023 - Dec 2024

- Curated high-quality NLP datasets for enterprise chatbot models.
- Authored annotation guidelines, ensuring 95%+ data accuracy across projects.
- Validated model outputs & optimized iterative feedback cycles.
- Coordinated with QA teams to maintain data compliance in large-scale annotation pipelines.

## Projects

### ChatGPT–Based Content Moderator

Aug 2024 - Nov 2024

Designed and deployed an AI-driven UGC moderation system using ChatGPT and n8n, incorporating fallback mechanisms to ensure consistent accuracy and reduce manual review workload.

### AI Learning App (Flutter, Dart)

May 2025 - Jul 2025

Built a mobile learning application integrating AI tutoring modules and interactive lessons, enabling personalized learning experiences and real-time feedback for students.

**n8n Automation**                                                    Dec 2024 - Feb 2025

Developed end-to-end workflow automations including an AI-powered business chat agent, multi-platform integrations (email-to-Excel, Telegram bot), and monitoring tools—streamlining repetitive processes and improving operational efficiency.

**Notion Workflow System**                                            Aug 2025 - Sep 2025

Delivered a customized Notion-based productivity system tailored to client needs, improving team collaboration, knowledge management, and workflow tracking across projects.

## Core Skills

**AI & Automation:** Prompt Engineering, AI Agents, GenAI Workflows, AI Content Moderation

**Workflow & No-Code:** n8n, Zapier, Make, Airtable, Notion, API Integratons

**Web Development:** React, JavaScript, Vercel (CI/CD), Responsive Design, Full-Stack Prototyping

**Collaboration Tools:** GitHub, Remote Team Coordination, Documentation, Agile Practices

## Education

**MH. Thamrin University**                                            Sep 2023 - Present

**Bachelor**  Information Systems
GPA: 3.90

**SMK Muhammadiyah 03**                                               May 2020 - May 2023

**High School Diploma**  Computer Network Engineering
GPA: 89

## Languages

**Indonesia** *(Native)*,  **English** *(Advanced)*

## Certificates

**Front-End (React)**                                                 May 2025
*HackerRank*

**JavaScript (Intermediate)**                                         May 2025
*HackerRank*

**Web Developer (PHP)**                                               Oct 2023
*BNSP KOMINFO*

**Python**                                                            Sep 2023
