Jalan Namin Atmaja, Pamulang, Banten, 15416, ID

AI Automation Specialist with experience in building intelligent workflows, prompt design, and human-AI collaboration. Skilled in using n8n for no-code automation and in crafting robust prompt strategies using tools like ChatGPT, Claude, and Hugging Face. Successfully delivered global remote projects in AI moderation, classification, and support workflows for large-scale content platforms. Fluent in English with a proactive, feedback-driven approach.

Work Experience

AI Automation & Workflow Associate
Nodeflux | Hybrid (Indonesia)

Mar 2024 - Sep 2025

- Developed GenAI-based content moderation pipeline for large-scale text classification systems
- Build prompt agents that can adapt to different types of use cases such as content filtering and verification.
- Create an automation flow with n8n to feed data to the labeling team and record AI performance evaluation results.
- Create automated n8n flows for GenAI model evaluation and data annotation team coordination.

Coding Expertise
Outlier | Freelance

Sep 2024 - Aug 2025

- Developed and optimized AI-powered code generation systems for enterprise e-commerce and insurance clients
- Implemented machine learning algorithms to enhance chatbot response accuracy and system performance
- Collaborated with international development teams to build scalable system architectures
- Applied advanced natural language processing and sentiment analysis to improve customer experience

AI Data Annotation
DataAnnotation | Contract

Dec 2023 - Dec 2024

- Annotated and labeled training datasets for enterprise AI chatbot models with focus on accuracy and consistency
- Analyzed and categorized diverse customer service scenarios to create high-quality NLP training datasets
- Developed annotation guidelines and best practices to streamline data processing workflows
- Participated in iterative model improvement processes through comprehensive data validation and testing

Core Skills

AI & Machine Learning: Generative AI Tooling, Prompt Engineering, AI Content Moderation, Machine Learning Operations

Data Science & Analytics: Data Annotation & Labeling, Quality Assurance, Performance Analytics, Dataset Development

Automation & Workflow Engineering: n8n Workflow Automation, Process Automation, System Integration, Performance Monitoring

Web Development & Design: Frontend Development, Clean Code Practices, Responsive Design, Backend

Technical Leadership & Collaboration: Remote Team Collaboration, Cross-functional Communication, Project Management

Education

MH. Thamrin University   Sep 2023 - Present

Bachelor Information Systems
GPA: 3.90

SMK Muhammadiyah 03   May 2020 - May 2023

High School Diploma Computer Network Engineering
GPA: 89

Languages

Indonesia *(Native)*, **English** *(Advanced)*

Certificates

Web Developer (PHP)   Oct 2023
KOMINFO (BNSP)

JavaScript (Intermediate)   May 2025
HackerRank

Front-End (React)   May 2025
HackerRank

Python   Sep 2023
PT Bisa.ai

Additional

- Work Authorization: Indonesian citizen, available for remote work globally
- Start Date: Available to start immediately
- Work Arrangement: Experienced in remote/hybrid work environments with international teams
- Time Zone Flexibility: Adaptable to various time zones for global collaboration
